7. TSCA CBI: Stephanie Brown-OCE
Discussion and questions for the Regions.

Background: OECA's Office of Compliance (OC) has led a national CBI Forms workgroup over the past year to devise model CBI inspection documents (forms, notices, FAQs) for all programs – with separate documents for TSCA vs. for all other programs. (This is not the TSCA CBI workgroup that another OC office led about 4 years ago.) **The current TSCA draft and other related documents, are attached.** The current workgroup has advised that the models will be issued as pilots for regional testing. We understand that the drafts have undergone regional management review. Final HQ approval is pending.

Questions for the Group: We want to ensure that HQ has the benefit of your experience regarding the applicability/usefulness of the TSCA drafts to CBI claims concerning lead-based paint information. Therefore, we plan to take a very quick poll during the call to get each Region's response to questions such as the following:

- Did your Region participate in the current OC CBI workgroup?
- Did your Region provide comments on the current TSCA draft? If so, what were they?
- Are TSCA CBI claims for lead-based paint information currently a problem for your Region?
- What comments, if any, would you like us to submit on the drafts?

If you care to do so, then please feel free to send me, Stephanie Brown, a short note before next Tuesday that responds to these questions as well.
